

VFDA was formed to raise, propagate, and market fish and fish products, and to develop renewable fisheries resources for the benefit of sports fishermen, commercial fishermen, fish processors, tourists, and all businesses dependent upon the fishing industry in Alaska.

JOB ANNOUNCEMENT

Fish Technician IV

Are you looking for a job with a great company that offers more time off for travel and leisure activities? Are you looking for an opportunity to work in aquaculture in a city environment?

Valdez Fisheries Development Association is looking to hire a talented individual to work a week on week off, 12 hour schedule at Solomon Gulch Hatchery in Valdez, AK.

As a critical member of our hatchery team, the Fish Technician IV is the night watch position who is responsible for the primary care and security of the association's fisheries resources and hatchery facilities.

The ideal candidate will have the ability to use independent and sound judgement, demonstrates a strong work ethic, and is motivated in producing a high quality of work in a timely fashion.

Wage scale: Begins at \$25.97 per hour DOE

Benefits package includes health, dental, vision, life insurance, health savings account, and 401K retirement package with matching company contributions.

Minimum Qualifications: High school graduate or GED. Prefer completion of post high school courses in fisheries or a related field. Demonstrable knowledge in Pacific Salmonid culture is preferred. This position is physically strenuous; employee must be able to hear alarms and other auditory warnings, and observe changes in fish conditions.

To apply: Visit our employment page for VFDA's general application and for more information:
