Qualifications: Minimum required

1. Education — High school graduate or equivalent preferred.
2. Experience - Two years experience in a similar position, preferably in a hatchery environment or within fisheries.

Additional Desirable Qualifications

Must have the ability to communicate and work effectively with co-workers. This position is physically strenuous. Must have ability to: tolerate long periods of walking or standing; lift equipment and supplies weighing up to 25 pounds, push and pull objects independently and in conjunction with others; bend and stoop frequently; use hands and arms to manipulate small objects with accuracy. The ability to swim is desired. Must be able to hear alarms and other auditory warnings, see detail, such as fish anatomy (otolith). Must be able to solve problems and have ability to organize time and carry out duties with a minimum of supervision.

Work Environment

The Otolith Recovery Technician will be exposed to cold and wet conditions frequently. Noise levels are frequently high due to alarm, machinery, and running water. Requires performing duties on and adjacent to cold water in watercraft and on moored structures where personal flotation devices are required. Exposure to sharp objects. Potential hazard of hypothermia when working on water.

Compensation and Application

The Otolith Recovery Technician position starts at \$16.06/ hour (agriculture exempt) position. To apply send a general application to vfdahr@valdezfisheries.com or fax to (907) 835-4831 Attn: HR.
